

Zachry

Deer Park & Pasadena, Texas

Zachry Industrial, Inc. began a \$200 million investment in EPC work at Calpine Corp.'s Channel Island Energy Center in Pasadena, Texas, and Deer Park Energy Center in Deer Park, Texas. The projects, which will add around 400 MW of combined capacity, were completed in 2014.

B&W Energy Services continues its ongoing relationship with Zachry by providing professionally engineered chemical cleaning, steam blowing and lube oil flushing services for these two innovative HRSG cogeneration expansion power projects in Texas. B&W has had the pleasure of partnering with Zachry on a number of projects, including: Riviera Beach Energy Center, Florida; Piedmont Energy Center, Georgia; Cape Canaveral Energy Center, Florida.
