

SKANSKA

Rio Grande do Sul, Brazil

Skanska Brazil has started the pre-commissioning cleaning of three pressure-level Heat Recovery Steam Generators for the UTE Sepé Tiaraju expansion project for Petrobras.

B&W Energy Services was chosen to perform our engineered steam blow services for this expansion project.

SKANSKA

As a global provider of pre-engineering and pre-commissioning cleaning services, this is another example of how B&W has mobilized to help our clients. Our Brazil location gives us access to support clients in the region. B&W clients can appreciate our rapid response from our strategically located facilities.
